Caregiver Visits

Nest & Care believes in the power of consistent and high-quality care. Behind the scenes, our dedicated Care Manager, **Icey**, plays a vital role in ensuring that our caregivers provide the best possible support to our clients through her routine caregiver supervisory visits.

Icey presented **Mr. E** with carefully selected birthday gifts that reflected his interests and hobbies, showing her deep understanding and appreciation for him as an individual.

Icey also utilized this visit to assess the caregiver-client relationship, ensuring that it is built on trust, respect, and a genuine connection. She observes the caregiver in action, listens to their experiences, and provides valuable feedback to enhance their caregiving skills and techniques.

Co-Marketing Activities

Nest & Care is thrilled to highlight a recent event that brought together our Care Manager, **Icey**, and Director of Operations, **Shay**, for a delightful smoothie day at Tribute at Black Hill - a senior living community located in Germantown, Maryland.

Client and Employee Feedback

Caregiver Review

"I like that their trainings are very educational, there were things I didn't know even though I was in the field. I get certificates and gift cards and gifts, at Christmas and Thanksgiving they show you how they appreciate you. I like that they answer any questions I have and there is always someone I can relate to. They always give you a client that you can handle. I'm satisfied. "

~ M. B.

Client Testimonial

"They're friendly and interested in getting to know the patients. The scheduling and planning has been great, and they do a good job at planning an adequate day for her. It's hard to say anything in specific, but I suppose better time management would be appreciated. Overall, the administration is doing a great job."

~ T.W.
