OCTOBER EVENTS & ACTIVITIES

Nest & Care supports **National Breast Cancer Awareness Month** this October. Breast cancer is one of the most common kinds of cancer in women. About 1-in-8 women born today in the United States will get breast cancer at some point. The good news is that most women can survive breast cancer if it's found and treated early.

Nest & Care took the chance to spread awareness and support this annual campaign. We ask women to be empowered and **make time to care for themselves** and **schedule their breast cancer screening today!**

The above shows our **Care Team** in full support of **National Breast Cancer Awareness Month**.
